## HOW MUCH COMPOST IS IN THIS BAG?

## USEFUL TIPS

- Some plants are hungrier than others so may require feeding earlier. If leaves start to pale this is a sign to start feeding, and we recommend using **Miracle-Gro® Performance Organics™ Plant Food.**
- Try to avoid compost in pots drying out, and don't let them sit in water either, roots don't like being waterlogged!
- Outdoor pots and containers might need more water in the summer, so always check first with the 'finger test' – pop your finger about 3 cm into the compost. If dry, get watering. If not, wait a bit longer.
- Sometimes you might see some white mould on your compost. **This is not harmful** to your plants and will disappear naturally.
- For all ericaceous (acid-loving) plants we strongly recommend using **Miracle-Gro® Peat Free Premium Azalea, Camellia, Rhododendron Ericaceous Plants Compost.**
