Why use Miracle-Gro® Plant Food Fast Acting Granules - Rose & Shrub?

This fast-acting feed delivers nutrients steadily over time, so you won't need to reapply frequently. It provides your roses and shrubs with consistent nourishment to grow strong and healthy throughout the season – without constant attention. Proper feeding encourages deep roots, lush leaves, and those beautiful blooms we all love.

Feeding your roses and shrubs isn't just about appearance – it's about giving them the strength and resilience they need to thrive all season long.

WHEN TO USE

For Long lasting results apply Miracle-Gro® Plant Food Fast Acting Granules - Rose & Shrub every 6 weeks.

For roses: Apply twice a season at the first flower bud stage and at the second flush of roses. Extra magnesium for greener leaves – carefully balanced to provide rose plants with essential nutrients required for optimum growth and flowering.

WHERE TO USE

Ideal for established plants or for planting new roses and shrubs, in beds and borders, containers and pots.

**BIGGER PLANTS, MORE FLOWERS,
GREENER LEAVES - GUARANTEED†**

Miracle-Gro® Plant Food Fast Acting Granules - Rose & Shrub are scientifically proven to grow healthier plants – at least twice as big as unfed ones! Specially formulated to grow bigger plants, more flowers, as well as greener leaves - guaranteed.

We're so confident you'll love it, we'll replace it if you're not satisfied. Need a helping hand? Call our friendly Miracle-Gro® Garden Gurus on 01276 401300. We're here to help your garden thrive.

MIRACLE-GRO® ROOTED IN SCIENCE

DANGER

Miracle-Gro® Plant Food Fast Acting Granules - Rose & Shrub
Causes serious eye damage.

If medical advice is needed, have product container or label at hand. Keep out of reach of children. Read label before use. Wear protective gloves and eye protection. **IF IN EYES:** Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Immediately call a POISON CENTER or doctor.

HOW TO USE

ESTABLISHED ROSES AND SHRUBS

1. Evenly scatter 1-2 handfuls of granules around the base of each bush, over the whole rooting area.

2. Lightly work into the soil.

ALWAYS WEAR GLOVES

PLANTING NEW ROSES AND SHRUBS

1. Dig a hole double the size of the root ball and cut back any damaged roots.

2. Insert a supporting stake before planting.

3. Evenly scatter 1 handful of granules over the planting area and lightly work into soil.

4. Position the roots, cover with soil/compost, firm in and water thoroughly.

PLANTING IN CONTAINERS

1. Evenly scatter 1 handful of granules over the planting area and lightly work into the compost.

2. Remove the plant from it's previous container and plant into a hole deep enough to take the soil ball.

3. Fill in with compost around the roots, firm lightly and water thoroughly.

- One handful of granules is approximately 25 g.
- Avoid over watering or allowing plants to dry out as this can cause damage to the roots.

STORAGE & ADVICE

- Reseal pack after opening.
- Store in a dry place.
- Store upright in original packaging.
- Protect from frost. Store between 5 - 30°C.
- Store away from direct sunlight and sources of heat.
- To be used only where there is a recognised need. Do not exceed the application rate.
