PROTECT FROM FROST.

Poisons information: For information or to report a poisoning incident in Ireland, contact the National Poisons Information Centre (01 809 2166), retain the label for reference.

*Reduce plastic packaging by using concentrates instead of Ready To Use products.

Kills clover, chickweed, common groundsel, black nightshade, sowthistle, black medick, annual meadow-grass and mayweeds.

- ✓ Use all around the garden on flower beds, borders and veg patches.
- ✓ Kills weeds in 24 hours under optimal conditions.
- ✓ Fast acting, the first visible effects may be seen within 2-3 hours.
- ✓ Kills a broad range or annual weeds.
- ✓ Soil is ready for replanting in 3 days.

WHEN TO USE

- Apply in warm, calm, dry, conditions during April - November when weeds are actively growing.
- Do not apply when there is a risk of frost or drought as weeds will not be actively growing.
- Reapply if it rains within 3 hours of application.
- Reapply 7 to 21 days if required.
- Maximum 4 applications per year.

WHERE TO USE

- Use to kill weeds on flower beds, borders, vegetable patches, around roses, shrubs, hedges, greenhouses and along fences. Ideal before cropping and ground clearance before cultivation.
- Can be used to clean up weedy ground before planting vegetables, flowers, bushes and trees, and to renovate overgrown areas.
- For the control of weeds around ornamental garden plants, trees and in areas not intended to bear vegetation.
- Most effective when applied to newly established weeds or those less than 10-15 cm tall.
- Do not direct spray or allow spray drift onto cultivated plants and lawn as this product destroys all green plant parts.

HOW TO USE

Use in a pressure sprayer only. Wear gloves and enclosed footwear.

1. Work out the amount of concentrate required using the table below. Measure and mark out large areas before application.
2. Fill sprayer with half the water required, then add the required quantity of concentrate (use the measuring cap).
3. Add the remainder of water and mix thoroughly before applying. Spray the weeds ensuring good coverage of the leaves.
4. Use the mixture immediately or soon after mixing. Only make as much as you plan to use within 2 hours. If left standing for more than 30 minutes shake the sprayer before using.
5. Wash equipment thoroughly with water immediately after use, three times with water and drain the sprayer on areas on to bare soil not intended to bear vegetation.

Add to 500 mL of water	Area treated	
Annual weeds	25 mL	11 m ² This pack treats up to 110 m ²

Keep children and pets away from treated areas until spray has dried
